

Allsky, Setting-Files sichern.

in /allsky

config.sh

ohne GUI

settings.json

mit GUI

/etc/raspap/settings.json

/allsky/scripts/ftp-settings.sh (ftp upload)

Sicherung

mkdir backup_allsky

cp /home/pi/allsky/config.sh /home/pi/backup_allsky/config.sh

cp /home/pi/allsky/scripts/ftp-settings.sh /home/pi/backup_allsky/ftp-settings.sh

cp /etc/raspap/settings.json /home/pi/backup_allsky/settings.json

Bilder sichern wenn gewünscht: (das dauert....)

cp -ar /home/pi/allsky/images /home/pi/backup_allsky/images

Allsky Verzeichnis löschen

cd /home/pi

sudo rm -r allsky

Installieren:

```
cd /home/pi
```

```
git clone --recursive https://github.com/thomasjacquin/allsky.git
```

```
cd allsky
```

```
sudo ./install.sh
```

```
sudo gui/install.sh
```

Rüchsichern:

```
cp /home/pi/backup_allsky/config.sh /home/pi/allsky/config.sh
```

```
cp /home/pi/backup_allsky/ftp-settings.sh /home/pi/allsky/scripts/ftp-settings.sh
```

```
sudo cp /home/pi/backup_allsky/settings.json /etc/raspap/settings.json
```

Bilder rüchsichern

```
cp -ar /home/pi/backup_allsky/images /home/pi/allsky/images
```

Anschließend den Inhalt des Backup-Ordner löschen

```
rm -r /home/pi/backup_allsky/*
```

```
sudo reboot now
```
