Windows 10

Installation

Zuletzt bearbeitet von **m27trognondepomme** vor 6 Monaten

- Download
- Prerequisites
- Installation

Download

The latest version is available here: <https://gitlab.com/free-astro/sirilic/-/releases>

Prerequisites

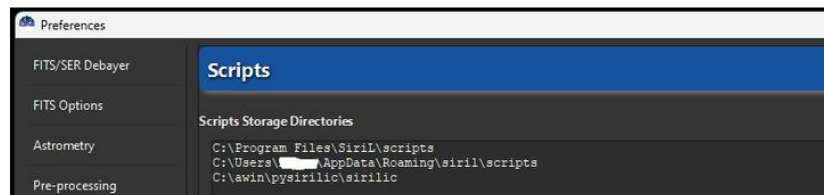

You must have the **SirilL** software installed, preferably version $\geq 1.4.0$.

Note: At a minimum, the packages python3-pip, python3-venv, and python3-tk must be installed on Linux systems based on Ubuntu or Debian.

Installation

The installation is similar on **Windows**, **Linux**, or **Mac OS**.

- Download the latest version and unzip the archive.
- Launch **SirilL**.
- Go to the *Scripts/Get Scripts* menu.
- Add the path to the Sirilic folder containing the "Expert.py" file.
